

PAYMENTEVOLUTION

# WHY PAYMENTEVOLUTION?

*They are payroll experts who know small business,  
and help companies succeed.*

## **It fits what is happening in our industry.**

The insurance and general business landscape is becoming more technology-enabled. Technology allows benefits and payroll to integrate on one platform, and that integration creates remarkable savings in terms of time and money.

## **It strengthens relationships.**

A customer with payroll and benefits integrated on the same platform, same billing cycle, and same communication channel is less likely to switch advisors. Stability around a sustainable model that provides better value means retained, happy clients and deeper relationships.

## **It grows business.**

BBD provides solutions to help customers succeed - and we believe customers succeed when their valuable time is spent on valuable work, like growing their core business. Additionally, Advisors who connect customers to technology solutions like integrated benefits and payroll are differentiated in the current market.

BBD is excited to equip Advisors with an accessible, affordable technology platform to bring to our shared community. Technology has changed the way we do business - let's help change the way our customers do business, too.

# SAVE YOUR COMPANY MONEY

## Affordable plans for every business.

	8 employees	25 employees
\$2.50 per employee	\$20.00/payrun	\$62.50/payrun
\$25 setup fee	\$25.00	\$25.00
Total first payrun cost	<b>\$45.00</b>	<b>\$82.50</b>

## IT MAKES SENSE THAT'S WHY WE SWITCHED

*Switching from our old payroll provider to PaymentEvolution is like upgrading from Atari to Xbox - it's so much more intuitive! We're a 90 person company & we went from spending hours on payroll to 20 minutes per pay run. Our bottom line is feeling the love too - we're seeing a cost savings of over \$14,000 per year.*
