

NEW FOR 2018

SASKATCHEWAN REGISTERED ELECTRICAL CONTRACTOR PROGRAM

PURPOSE

The Saskatchewan Registered Electrical Contractor Program is a partnership between SaskPower Inspections and the Electrical Contractors Association, designed to improve and maintain the safety and consistency of electrical installations in Saskatchewan.

The Program will reward electrical contractors with a 10% discount for electrical permits after standards are demonstrated on a one year cycle of permitting.

IMPLEMENTATION

- Tracking of Contractors will begin on January 1, 2018 (all Saskatchewan licensed contractors are eligible)
- Contractor history is recorded through 2018
- In November of 2018 Contractors will be notified if they achieved Registered Contractor status
- Beginning January 1, 2019 Registered Contractors will receive 10% discount on each permit applied directly at the source
- Registered Contractor status will need to meet standards annually

REQUIREMENTS

- Membership in the Electrical Contractors Association of Saskatchewan
- Proof of a 2018 Code Renewal Certificate must be provided to the ECA of SK for all journeypersons on staff
- Maintain a defect ratio of 4% or below on all inspected permits
- Have no incidents of unreported work
- Disclose all information related to the electrical installation/permit
- Must have a minimum of 20 inspected permits annually
- Correct any defects by the date of expiry
- Take out permits online only
- No incidents of bond action
 - i. An incident of bond action will result in the immediate loss of status

Note: In future years other accredited training may be required
