

# Building Standards Workshop

Promoting construction of safe, healthy, habitable buildings

## Energy Code Workshops

The National Energy Code (NECB) and the National Building Code (NBC) Section 9.36. have been adopted and will be effective January 1, 2019. The Building Standards and Licensing Branch will host workshops in Regina and Saskatoon. In each location one half-day will be dedicated to the NECB and one half-day to NBC Section 9.36.

**NECB Workshop**— provides an overview to the requirements of the NECB for building envelope, lighting, HVAC systems, service water systems, and electrical power systems. Information will be provided for using prescriptive requirements, performance analysis or trade-offs in applying the code.

**NBC Section 9.36. Workshop** – provides an overview to the requirements of the NBC Section 9.36. for building envelope, HVAC systems, and service water systems. Information will be provided for using prescriptive requirements, trade-offs, or performance analysis in applying the Code.
