SASKATCHEWAN REGISTERED ELECTRICAL CONTRACTOR PROGRAM

PURPOSE

The Saskatchewan Registered Electrical Contractor Program is a partnership between TSASK Inspections and the Electrical Contractors Association, designed to improve and maintain the safety and consistency of electrical installations in Saskatchewan.

The Program will reward electrical contractors with a 10% discount for electrical permits after standards are demonstrated on a one year cycle of permitting.

IMPLEMENTATION

- ECA of SK will submit qualified contractors to TSASK on February 1 and July 1 (all Saskatchewan licensed contractors are eligible)
- Contractor permit history requires one year of permitting
- Approved contractors are notified by TSASK
- Registered Contractors receive a 10% discount on each permit applied for directly at the source
- Registered Contractors status must be renewed annually

REQUIREMENTS

- Membership in the Electrical Contractors Association of Saskatchewan
- Proof of a 2021 Code Renewal Certificate provided to the ECA of SK for all journeypersons on staff
- Maintain a defect ratio of 4% or below on all inspected permits
- Disclose all information related to the electrical installation/permit
- A minimum of 20 inspected permits annually
- Correct any documented defects by the date of expiry of the permit defect notice
- Take out permits online only
- No incidents of bond action or unreported work
 - i. An incident of bond action for unreported work will result in the immediate loss of status.

Note: In future years additional accredited training may be required
